

## Mix Up Your Study Habits

Mixing up your study habits can help you get a deeper understanding of the material and strengthen your chances of success. Reading through your notes constantly OR staring at lecture slides might not be enough!

Try new things while doing what works best for you.

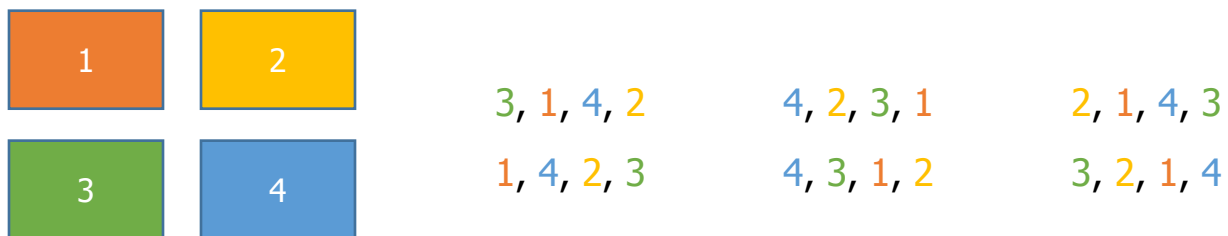

Make your notes & studying fun - engage your brain!

### Mix Up Colors of Pens in Notes

- **Word:** Definition
- **Main Ideas:** Supporting Details

### Mix Up Order of Material

- Rarely will your professor list the exam questions in the order he went over them in class, so why study the material in that order? Divide material into sections then test yourself!

### Mix Up How You Study

- Make flash cards for vocab words
- Create an outline of material for the exam
- Draw out mind maps to connect concepts
- Teach learned material to an empty classroom
