

It's Worth a Shot

CareHere will be providing flu shots at selected Pasco County schools during the months of October and November!

The flu clinics are offered at no cost to **all insured and non-insured employees**. Flu shots will be provided at the worksites listed below, beginning October 13th, on a first-come, first-served basis. **Schedule is subject to change. Please check back frequently for updates.**

The Health and Wellness Centers will begin offering appointments for the flu shots in November, after the on-campus flu clinics have concluded.
