

Debt Management Plan (DMP)

Our DMP takes your unsecured debts and consolidates the payments into one easy monthly payment.

DMCC collects one monthly payment from you and disburses it to each of your creditors according to an agreed payment schedule. While enrolled in our DMP, most creditors cease their collection efforts, reduce interest rates and report your account as current. All of our DMP's are designed to pay off the enrolled debt in 5 years or less.

Available Benefits

- Payments consolidated into one easy monthly payment
- Lower interest rates
- No collection calls
- Positive payment history
- No past due and over-limit fees
- Accounts reported as current
- Enrolled debt paid off in 5 years or less
