

2021

Outstanding

SENIOR

Extracurricular Activities:

- Community volunteering
- Reading
- Painting
- Hiking
- Hand-sewing sustainable clothing

Emma Burdick

Pasco eSchool

Scholarship:

My academic career has been defined by my dedication and perseverance. From 6th to 10th grade, I completed extra classes every summer, and every class possible has been honors. I have completed every science class my school offers. I have taken 2 AP courses and am currently completing 2 dual enrollment courses with Pasco Hernando State College. My plans after high school include earning a bachelor's in biochemistry and entering the biochemistry field in medicine.

Leadership:

I have always looked to help those who have needed it. I was a volunteer student advisor when my teacher had an official participant drop out. I made sure new online students were adjusting smoothly and gave them help with any questions. I have tutored many friends, family, and strangers, for no pay or recognition. I go out of my way to include everyone and inspire young children to do the right thing.

Service:

I have always gone out of my way to help those in need. From supporting friends and strangers' mental health, to assisting anyone I see struggling, I always try to make a positive impact on my community. I am just now starting to volunteer at the Pasco Humane Society to help get animals into safe, happy homes. I am also participating in more unofficial events such as beach cleanups and drives.

Citizenship:

I always go out of my way to assist those who need it and always keep a professional and positive attitude. My middle school years were packed with service to my community. I was a participant in the Pilates for Healthy Kids program where we taught underprivileged children healthy habits for health. During this program, I went in front of the Broward School District to propose ideas and plans to help children to be healthy.
