

Star Test Record Report

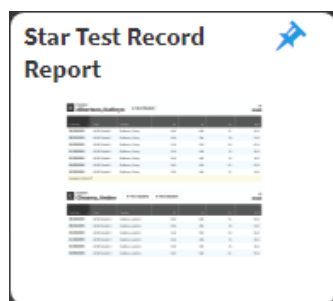

The Star Test Record Report shows individual results for tests taken within a specific date range.

How do I get to this page?

1. Log in to Renaissance.
2. On the Home page, select **Star Reading**, **Star Early Literacy**, or **Star Math**.
3. In the drop down-list, select **Reports**.

4. On the Star / Assessment tab on the Reports page, under “Growth and Progress,” select **Star Test Record Report**.

Who can do this with default user permissions (../setup/22506)?

District Level Administrators, District Dashboard Owners, District Staff, School Level Administrators, School Staff, Teachers

1. Select **Choose Assignment Type...** (either the link or the button) to choose the assignment types to include in the report.

- If the Teachers column is available, at the top of the column, choose either **All Teachers** (to choose all the teachers in the school) or **Select Teachers** (to choose specific teachers; check the ones you want in the list).

You can search the items in a column by clicking *within* that column and then typing **Ctrl+F** or **control-F** on the keyboard.

- At the top of the Classes column, choose either **All Classes** (to choose all the classes for the teachers) or **Select Classes** (to choose specific classes; check the ones you want in the list).
- Teachers and school staff will also see a Groups column. At the top of the **Groups** column, choose either **All Groups** or **Select Groups**; if you choose **Select Groups**, check the groups that you want to include. The first choice in the column is "Whole Class" or "Whole Classes"; choose this to report on the class(es) as a whole. Below that, you will see any groups that you have created.
- **You may need to scroll to the right to see the Students column.** At the top of the Students column, choose either **All Students** (to choose all the students) or **Select Students** (to choose specific students; check the ones you want in the list).

5. Use the **Scale** drop-down list to choose which scale you want to use for the scores on the report. (If you select a scale that doesn't apply to the selected assignment type, such as Reading Age for Star Math, the default scale for that assignment type will be used.)

Scale

Star Enterprise Scale Show

- Star Enterprise Scale
- Star Unified Scale
- Lexile® Scale
- Reading Age
- PARCC
- Smarter Balanced

PARCC (Math) only applies to grades 3–8.

- PARCC (Reading) only applies to grades 3–10.
- Smarter Balanced (Reading and Math) only applies to grades 3–8.

If the selected scale does not apply to some of the selected students in the report, the Star Enterprise Scale will be used for those students.

6. Finally:

Scale Show Grade Equivalent Page Break Between Students Hide Students Without Data

- Check **Show Grade Equivalent** to include Grade Equivalent scores (GE) in the report.
- Check **Page Break Between Students** to have each student's report start on its own page.
- Check **Hide Students Without Data** if you want to have students without test data omitted from the report.

7. Once you are done choosing report options, select **Update Report**.

Summary: 3 Tests

^b This student was given additional time to complete their test.

- The test record for each of the selected students is shown. Every test (of the type selected) taken during the chosen date range is listed, with the most recent test at the top. The total number of tests taken is listed at the bottom.
- The date of each test is listed, along with the scores from that test. The scores shown will vary based on the type of test selected; the example above shows scores from a Star Math Enterprise (English) assessment.
- If the student used extended time limits ([../prefs/21023](#)) for a test, a footnote stating so will be attached to the date of the test.

The score in the Score column is shown in the scale you selected earlier.

If the following conditions are met:

- the report would normally show a student's Zone of Proximal Development (ZPD) ([ZPD](#)) and
- the Lexile[®] Range preference ([../prefs/21005](#)) has been set to use Lexile[®] Ranges,

then the Lexile[®] Range will be shown instead of the ZPD.

If the report is for Star Math Enterprise (English) or Star Math Progress Monitoring (English) assessments and the Quantile[®] Measure preference ([../prefs/21032](#)) has been set to show Quantile[®] Measures, the report will show Quantile[®] Measures (Quantile Measure). (At this time, Quantile[®] Measures are not

available for Star Math Spanish, Star Math Algebra, or Star Math Geometry assessments.)

9. You can change any of the options you have selected and then regenerate the report by selecting **Update Report**.

10. To print the report, select the PDF icon at the top of the screen: .

11. To return to the Reports page, select either **< Back to Reports** or the report icon  at the top of the screen.
